

Ontario Power Generation Canada Internships 2026

Description

Ontario Power Generation (OPG) Canada offers dynamic internship opportunities for students looking to gain practical experience in the energy industry. As an intern at OPG, you'll have the chance to work alongside industry experts, contribute to meaningful projects, and develop valuable skills that will prepare you for a successful career in the energy sector.

Responsibilities

- Collaborate with teams on various projects related to power generation, transmission, and distribution.
- Assist in conducting research, analysis, and data interpretation to support decision-making processes.
- Participate in site visits and inspections to gain firsthand knowledge of OPG's facilities and operations.
- Contribute to the development and implementation of innovative solutions to enhance efficiency and sustainability.
- Communicate findings and recommendations effectively through reports, presentations, and discussions with colleagues and supervisors.
- Adhere to safety protocols and regulations while working in both office and field environments.

Qualifications

- Currently enrolled in a recognized post-secondary program, preferably in engineering, environmental science, business, or a related field.
- Strong academic record with a demonstrated interest in the energy industry and sustainability.
- Excellent analytical, problem-solving, and critical-thinking skills.
- Effective communication skills, both verbal and written.
- Ability to work collaboratively in a team environment and independently when required.
- Adaptability and willingness to learn new technologies and processes.
- Knowledge of Microsoft Office Suite and other relevant software applications.

Job Benefits

- Hands-on experience in a leading energy company with a reputation for innovation and excellence.
- Mentorship opportunities with industry professionals who are dedicated to supporting your growth and development.
- Competitive compensation package.
- Networking opportunities with peers, mentors, and industry leaders.
- Exposure to diverse projects and challenges that will broaden your understanding of the energy sector.
